

Scalpa

item 307

1897.

Min. Moore. Cl. 17plcm507

to told story of Mides very
much glad to say you
would I see - shd. have
made it plain "bithday
foot" to - did not go into
her subjects enough -
but - lovely golden roses -
shd. have asked class if they
had liked golden roses
good to make a crying voice
over golden roses
"What do you think happened
copper burning into gold
very well told -
What shall I do? very
good line - "Swallow very
quickly - "let burning gold -
very well & quickly -
"Indignant enjoying bread & milk

L20M207

" such a dread ful thing
happened - very good voice
very nice feeling -
Absolutely put from self -
Consciousness -

Chr. deeply interested
" This hurried folder told
Didn't wait shoes & stockings
had - -

good to let Chr. fill in outline
of story -

Also good to let them point
the moral -

All the under points of the
story very sweetly touched on -
good to get recap - with the
aid of the pictures

good to make Dora speak
good to insist on Dora
announcing - Wm. I knew the
story & told all the points to her

the picture -

Recap - very good - Chris
told the story quite well -
Because he looked at her
with expectant attention.

Gregory had lesson

Min Mercury Cl. 117 Mon.

Division - divided

Later -

deriv: of Sat. prod -

49 moons - prod -

V. f. to show extent of
moons on map.

Blk hd. work prod & quick

Teaching clear & accurate

prod to off. with my partner

a very good ellipse. B.D. is

prod to give ellipse when

the girls did not know it

from perigee & apogee.

well-timed - but did not give
derivation of ap. & per.

the principle of - ^{17p4cm507} - soil wd -
was not - thinking - found -
"almost - better known -
repeated twice -

got to find out why certain
parts are dark - & certain
light - "must look
very large for the size of it
had to make a round hole
for it not to say - for
the height of the hole but - just -
"moon for round its own
axis" - L

shd have associated month
with 'moon'

girls not - birth in their
lives -

Phases of moon very well
brought out -

"very good - to be able to
answer K's as to position of

moon with regard to sun -
Jules brought her to - eclipse
most admirably -

Shadow of moon is naturally
very narrow - good to be
ready with answers &
to make her 2^d the piece
of their lessons

V. f. - to show the difference
in width of shadows -

Chr kept T's quite up to
the mark -

"You aren't sure" etc -

T. exceedingly ready -
but not clear abt. clouds
interfering -

Matter very well chosen &
suitably -

Belk - had work very well done -
Chr. thoroughly interested

270601507
V. exceedingly accurate in
her explanations -

No recap on BP -
Recap. food - girls
required to ans. in full
+ did so -

"Cuts the sheet as like" veyal
for V. f. answers from
the girls -

Recap. not very thorough -
but the main points of the
lesson well recap -
I don't quite know how it's
managed -

telescope fairly well expd.
atmos. brought out by its
question - & then very
well explained -

His readiness to explain
points shd encourage others
in girls

hard water - " even atmosphere
from to ash
